Pew Research Center
Spring 2021 Global Attitudes Survey
September 22, 2021 Release

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Since 2007, Pew Research Center has used an automated process to generate topline for its Global Attitudes surveys. As a result, numbers may differ slightly from those published prior to 2007.
- The U.S. survey was conducted on Pew Research Center’s American Trends Panel. Many questions have been asked in previous surveys on the phone. Phone trends for comparison are provided in separate tables throughout the topline. The extent of the mode differences varies across questions; while there are negligible differences on some questions, others have more pronounced differences. Caution should be taken when evaluating online and phone estimates.
- Since 2020, the Italy survey has been conducted by telephone; surveys were conducted face-to-face in 2002 and 2007-2019.
- In 2021, the Greece survey was conducted by telephone; all prior surveys in Greece were conducted face-to-face.
- Questions that ask about the coronavirus use the most commonly used phrase in each public. In Australia, Canada, New Zealand and Taiwan, the question asked about the “COVID-19 outbreak.” In Greece, “coronavirus pandemic.” In Japan, “novel coronavirus outbreak.” In South Korea, “Corona19 outbreak.” All other survey publics used the term “coronavirus outbreak.”

- Not all questions included in the Spring 2021 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
